### simplify YOUR SUNSCREEN ROUTINE

...with this month's MVP.

[1] We know, it's hard to make sunscreen a priority in the cooler months. But now there's a breakthrough beauty product that takes the annoyance out of the application: Freeze 24-7 Ice Shield, \$48, is a facial cleanser and sunscreen in one. The wash-and-wear formula gently cleanses, then deposits SPF 18 onto your face as you rinse. And it feels light and lovely on your skin. We've got our fingers crossed for a body wash version by summer!
