## Celebs love double-duty face wash

Stars like Mya, Gabrielle Union and Shannon Elizabeth are shielding their skin from the sun's harmful rays with Freeze 24-7's newest product, Ice Shield, the first facial cleanser that features an SPF 15 that stays on even after you rinse. Even the most cautious celebrities melted once they discovered that Ice Shield received the Skin Cancer Foundation's seal of approval for its aid in preventing sun damage to the skin. Other fans of Freeze 24-7's antiaging line include Renée Zellweger, Katie Holmes and Penelope Cruz. \$48, freeze247.com.
